## Success stories, e.g.

- Establishment of a new leadership structure for a production unit: job profiles, selection, training, development of vision and leadership guidelines, introduction of OKR, new leadership routines
- Introduction of agile working methods and a hub structure alongside the hierarchy
- Change Management for software implementations in talent management, 180-degree and instant feedback
- Transformation of specialists to leaders: needs analysis, change roadmap
- Leadership training formats from team to department level in Europe, Asia, Africa
- HR management audit, development of talent management and e-learning architecture
- International innovation journeys for senior management/C-level
